LABEL and SAWA

Die INTERREG IV B Projects LABEL und SAWA deal with adaptation to flood risks in two different programme areas – North Sea region and Central Europe:

- First, it is necessary to take on the new challenges of flood risk management.
- Second, strategies for a risk adapted development of uses are developed.

Joint conference „Elbe without borders“

Organisation:

Together with 42 project partner from eight countries the Free and Hanseatic City of Hamburg and the Saxon State Ministry of the Interior organize the conference “**Elbe without borders**”.

Goals:

The two days conference enables a deepened exchange between the activities of the projects LABEL and SAWA and their project partners as well as with further interested stakeholders.

Local decision makers and stakeholders are specifically integrated at this exchange to disseminate the joint messages and to promote important networks across programme area borders.

Tuesday, 14.06.2011

13:00 Welcome and Introduction

Federal funding programme „Transnational Cooperation“ and cooperation between projects of different programme areas

Overcome borders:

LABEL and SAWA as driver for transnational cooperation at flood risk management
